

Adhesives, sandwich elements & cleaning agents for the roller shutter box

Adhesives, sandwich elements & cleaning agents for the roller shutter box

1 Adhesives for the manufacture of roller shutter boxes

| Adhesive system | Application | Film property | Viscosity | Skinning time Dry | Functional strength |
|------------------|-------------------|---------------|-----------|----------------------|---------------------|
| COSMO PU-100.110 | Assembly adhesive | Tough-elastic | Pasty | 5 min | 15 min |
| COSMO PU-100.360 | Assembly adhesive | Tough-elastic | Pasty | 40 min | 5 h |
| COSMO HD-100.400 | Assembly adhesive | Elastic | Pasty | 12 min | 7 h |
| COSMO PU-160.190 | Surface adhesive | Tough-hard | Flowable | 10 min | 3 h |
| COSMO CA-500.130 | Superglue | Hard | Flowable | - | 15 s |

2 Cleaner for powder-coated, anodised and plastic surfaces

COSMO CL-300.150

- Cleaning before and after bonding
- It removes fresh adhesive residues, dust, adhesive residues of the protective film and fresh PUR foam
- Non-etching, quick drying

3 Final cleaner for plastic surfaces

COSMO CL-300.140 SPECIAL

- Cleaning after assembly
- It removes dust, adhesive residues of the protective film and fresh PUR foam
- Antistatic effect
- Non-etching, quick drying

4 Cleaning and maintaining of roller shutters

Pudol Pinto plastic cleaner

Special cleaner for roller shutters made of plastics

Pudol Special cleaner

It removes pollen dust, insect faeces and house dust from roller shutters made of plastics and metal

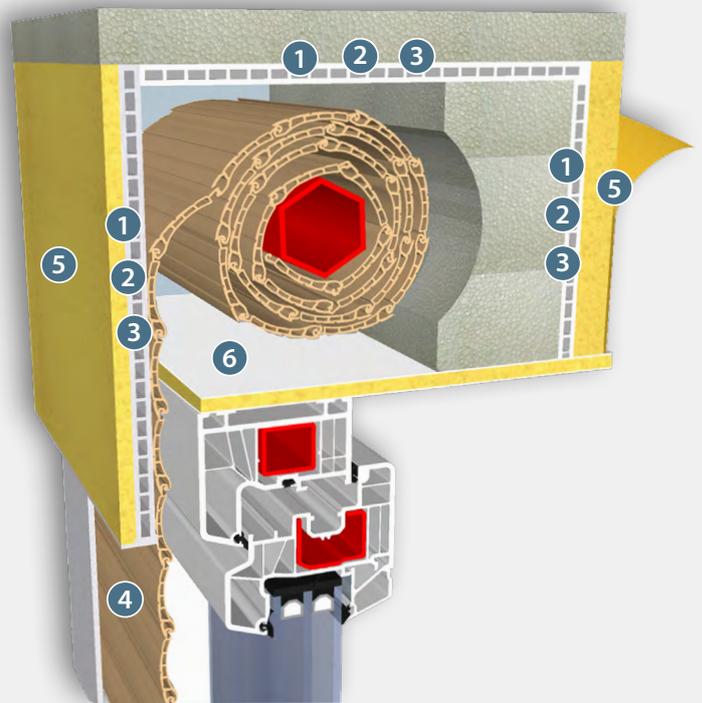

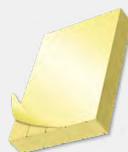

5 Self-adhesive plaster lath plate

COSMO Therm - Quick Tape

Film with adhesive on one side or both sides, with XPS core

- Fast bonding over the whole surface (pressing required)
- Extremely moisture-resistant
- Immediate adhesion & easy handling

6 End cover for the roller shutter box

COSMO Therm - PVC Sandwich elements

PVC on both sides, XPS core

- Extremely low GWP factor (*Global Warming Potential*)
- Resistant to UV-radiation, moisture and weather
- Fine smooth surface, optionally available with decorative film

COSMO Plan S integral rigid foam panel

- Good processing properties
- Fine, smooth surface
- Weather & UV-resistant
- Pressure resistant according to DIN EN ISO 844: >3 MPa
