

An overview of our range of products

Experience quality on a completely new level, with the powerful products by Weiss:

COSMO® Adhesives
Durably firm bond joints

- COSMO® CA (Cyanoacrylates)
- COSMO® PU (Polyurethane adhesives)
- COSMO® CL (Cleaning agents)
- COSMO® SL (Diffusion adhesives)
- COSMO® HD (Hybrid adhesives)
- COSMO® EP (Epoxy-resin adhesives)
- COSMO® DS (Dispersion adhesives)
- COSMO® SP (Service products)

Fields of application

- + Windows and doors
- + Transportation / Marine engineering
- + Industry
- + Assembly
- + Dry construction
- + Airtight bonding
- + Wood / Furniture industry
- + Container construction
- + Composite panels
- + Fire protection
- + Advertising industry

COSMO® Composite Panels
Unlimited possibilities for design

- COSMO® Therm (heat-insulating)
- COSMO® Silent (sound insulating)
- COSMO® Protect (penetration-resistive)
- COSMO® Design (grooved)
- COSMO® Tech (individual)
- COSMO® Frame (frame widening)

Fields of application

- + Window and façade
- + Door construction
- + Industry
- + Automotive manufacturing
- + Trailer construction
- + Partition panel construction
- + Gate construction
- + Container construction
- + Energy conservation
- + Fire protection
- + Burglar resistance
- + Sound proofing

**PUDOL Cleaning
and maintenance products**
Cleanliness refreshes your senses

- PUDOL SOFT**
Mild cleaning agent for sensitive materials
- PUDOL CARE**
Maintenance product for high gloss and hygiene
- PUDOL POWER**
Powerful cleaning agent for extreme pollution
- PUDOL FRESH**
Cleaning agent for cleanliness and fresh air

Fields of application

- + FLOORING
- + Sanitary area
- + Clothing care
- + Food industry
- + Household and gastronomy
- + Windows and glass
- + Dishwasher
- + Carpet and upholstery
- + Industry and workshop
- + Cars
- + Skin cleaning
- + Skin protection

Made by Weiss

Adhesives that do not require any special training

Adhesives without training obligation for diisocyanate

Frequently asked questions and answers referring to obligation to training on isocyanate:
www.weiss-chemie.com/sicherheit-pu/

Meanwhile, many adhesives require a diisocyanate safety training, this also applies to some of our COSMO® adhesive systems for bonding of corner angles and in aluminium window construction. However, for some variants of adhesive you do not need this training. These include our powerful hybrid adhesives as well as some special PUR adhesives that are eminently suitable for bonding of corner angles and aluminium window construction.

For nearly 3 decades, our customers have been convincing in our polyurethane corner angle adhesives. They convince of their reliability, optimised functional strength, as well as by the large number of different variants.

Our corner angle adhesives that do not require any training complete this product range perfectly. *Your advantage: These adhesives do not require any diisocyanate safety training!*

Our alternatives are:

- + No training required
- + Free from H351
- + Low level of labelling

Injection method

Accessories

In addition to a wide range of adhesive systems, we are also offering accessories, that optimise the use and handling of our adhesive systems.

Sealing of cut edges of sections

To prevent blank cut aluminium edges from corroding, they must actively be protected from air and moisture.

Anti-corrosion sealant COSMO® HD-100.411

Colour: grey (also available in white and black)

Cleaning

Cleaning of aluminium- and powder-coated as well anodised surfaces.

Aluminium cleaner COSMO® CL-300.150 - non-dissolving

Removal of fresh adhesive residues, dust, marking pencil, rubber residues, fresh PU foam.

Dosing

Air guns for dosing of adhesives in tandem cartridges

Air guns COSMO® SP-750.111, SP-750.121 and SP-750.150

SP-750.111 for 2x190ml tandem cartridge, SP-750.121 for 2x310ml tandem cartridge, SP-750.150 for side by side cartridges

Static mixer

Static mixing tubes for homogeneous mixing of 2-C-PUR adhesives used with tandem cartridges (double chamber cartridges).

Static mixer COSMO® SP-800.221 and SP-800.230

SP-800.221 for injection method and classic procedures, SP-800.230 for classic procedures
