

Pudol Surface disinfectant FDB ready-for-use

Surface disinfectant for all washable surfaces

Effective
against
SARS-CoV-2
viruses

The Pudol surface disinfectant FDB ready-for-use disinfects all water-resistant materials like plastics, ceramics, metal, wall and floor tiles, enamel, etc. With this, enveloped viruses, bacteria, and fungi will be killed deliberately, and a safe and clean environment is recovered - the precautionary measure for your daily environment.

Product details:

Properties

- 1 Disinfect
- 2 Alcohol-free
- 3 Chlorine-free
- 4 Solvent-free (no risk of fire)
- 5 Effective against bacteria, fungicides and has a broad effect
- 6 Virucidally effective against enveloped viruses (restricted virucide) as per EN 14476:2013+A2:2019

Ingredients

Fragrances

Application

Before use, check for material compatibility at an invisible position.

Before use, contaminated surfaces should be cleaned with a suitable agent.

- 1 Spread the disinfectant on the surface using a cloth. The surface should be completely wetted.
- 2 Allow it to act for at least 10 minutes.
- 3 Never mix the disinfectant with other cleaning agents, this will otherwise significantly reduce the disinfecting effect.

Only for commercial use.
